Isabelle von Fallois is the director of Angel Life Coach® Training and hosts the radio show Angel Messages with Cultus Animi. She is the author of several books in German and writes a monthly angel column for Joyful Living.

**OMTimes: Who is Isabelle Von Fallois and what is your story?**

**Isabelle Von Fallois:** Today I am an author, pianist and spiritual teacher who travels the world to give hope to people in challenging situations and help them to understand the divine power of love, angels and other light beings and to co-create miracles in the frequency of love and live the life of their dreams.

From childhood on I had a strong connection to God and somehow also to the angels. I never was afraid in the dark as I saw these so-called angel lights. As a teenager I read spiritual books but would never have thought that I would write these kinds of books one day too as my greatest wish and passion was to become a concert pianist. The piano was my life! So I worked very hard and had the great luck to study with some of the greatest teachers in the world like Arnaldo Cohen, Sergiu Celicbidache, Thomas Hampson, etc. and everything went in the right direction.

At some point my personal life became so difficult that I lost my connection to God and felt completely abandoned.

But then, shortly after my thirtieth birthday, EVERYTHING changed. Within one week I lost my partner, my house – and nearly my life as the doctors gave me 3 days to 3 weeks to live after having diagnosed me with severe leukemia. I was totally devastated...

Within all that horror, grace came upon me through a divine presence (at the time I did not know it was Archangel Jophiel) which comforted me in miraculous ways and helped me to pray and say affirmations nearly all day long.

Still it was a very tough time as I fought for my life for almost 4 years until Archangel Raphael appeared and everything changed...

**OMTimes: Tell us a little bit about the Power of Your Angels and why you wrote the book.**

**Isabelle Von Fallois:** “The Power of Your Angels” is not just a book to read but a book to work on yourself. What I learned through my own healing story is that we only can co-create miracles together with the angels, the divine, if we work through our past pain, our traumas, our blocks, our self-sabotaging mechanisms, change our thought patterns and learn to accept the NOW as it is.

During my illness I had worked with the wonderful book “The Artist’s Way” by Julia Cameron, a 12-week-program, which helped me immensely to overcome old toxic patterns.

So after being friends with the angels I thought it might be even easier to release the past and blockages with the help of these wonderful and loving beings. And one day, during meditation, they suggested to me to write a 28-day-program to help people to realize their life’s dreams. Still it was not the time to do so.

But one day while on Maui in Hawai’i I was touched by pure grace and an incredible encounter with whales. Within a very short period of time they truly downloaded the whole structure of the book while I was swimming and watching them. It

was AMAZING! And I knew this book was meant to be in the world.

**OMTimes:** You experienced a profound encounter with Archangel Raphael tell us about that?

**Isabelle Von Fallois:** After fighting for my life for nearly 4 years, I made a decision on my 34<sup>th</sup> birthday in April of 2004 I would not go to another doctor or healer. During the proceeding 4 years I had had a fever almost for 4 days out of every week. I was weak beyond words. So I truly put my life in the hands of God and the angels.

At the time, the only thing I could do more or less, was lay in bed, read, pray and meditate. Through a “coincidence” I discovered a book by Doreen Virtue, which opened my eyes in a new way. Somehow I was sure that if she was able to communicate with angels, I could do it too.

So for 2 months I invited the angels into my life daily. During one morning meditation I felt a powerful change in the air and opened my eyes. My mouth fell open as in front of me, visible for my physical eyes, stood the most loving angel with magnificent wings surrounded by shimmering emerald green light. Tears started to run from my eyes as he spoke to me: "I AM Archangel Raphael. Finally you can see me, finally you can hear me and now I can help you heal!"

It was absolutely breathtaking and beautiful beyond words. From that moment on he was by my side and gave me advice about what to do to heal so that day-by-day I felt a little bit better.

**OMTimes: Have you had contact with other angels? Tell us about your experiences?**

**Isabelle Von Fallois:** Yes, I have had contact with lots of angels. Especially with Archangel Michael, Archangel Ariel, Archangel Jophiel, Archangel Haniel, Archangel Jeremiel and Archangel Raziel who were nearly always close to me and working with me.

As I already mentioned, when I was in hospital I was so sad and afraid of death and all of a sudden I felt a wonderful presence which comforted me immediately and helped me to stay positive even while my life was hanging on a silver-thread for months and years. It was only in 2004 that I found out, that it was Archangel Jophiel who had been that presence. One she appeared to me while I was sitting at my laptop and channeling. Just like Archangel Raphael's visit to me, I felt the air pressure around me change and I looked up as this most beautiful angel who was hovering above my laptop.

I heard her lovely voice saying to me, "Do you remember me? I was the one helping you to stay positive in hospital and say all the affirmations, to see beauty even in the darkest moments."

YES, I definitely remembered her energy, which had carried me in

miraculous ways through the months of lying in a sterile single room where nobody was allowed to touch me because even the tiniest bacillus could have killed me.

**OMTimes: What have you learned from the angels?**

**Isabelle Fallois:** I have learned from the angels to completely trust in the process of life no matter what is happening around and within me and to see love within everyone and everything as the things are not as they seem to be. AND that everything is possible in the frequency of love as love is always THE answer!

**OMTimes: Who did you write the book for what are you hoping they will gain from reading it?**

I wrote this book for people who are willing to dig deep and work through their past pain, traumas and

shadows, with the loving help of the angels to recognize the hidden treasure within everything, to raise their frequency and truly be able to manifest miracles in all aspects of their lives.

In the meantime, the book is a bestseller in Germany and Italy and it has already changed the lives of tens of thousands of people in miraculous ways, be it their finances, health, relationships, job or other issues. A lot of people have already done the program several times because of the great results they experienced after doing it once. At the presentation of the Spanish edition in Barcelona, Spain last week one lady told me that she had already done the program six times and with incredible results!

**OMTimes: The book is a 28-day program tells us about that, why 28 days?**

**Isabelle Von Fallois:** Scientific studies have shown that it takes 21 to 28 days to break old habits and thought patterns in our neural pathways. That is the reason why the angels and whales asked me to create a 28-day-program together with them.

**OMTimes: You urge daily contact with the angels, who are your**

**personal angels and what have you learned from them?**

**Isabelle Von Fallois:** I urge daily contact with the angels because it helps us to also be able to receive their guidance, even in the most difficult situations. When we become more loving and peaceful and learn to recognize that our ego is taking over we recognize it and change immediately with the help of the angels.

Just like everyone, I have 2 beautiful guardian angels, however, I work with all the 27 angels that I talk about in the book and also with other divine beings, especially the Egyptian Goddess Isis, Jesus Christ, Mother Mary and Mary Magdalene.

From all these wonderful beings I have learned that the life mission of all the people, who are living on earth right now, is to become pure at heart again, to stop manipulation of any kind, to see love (aka God) always and everywhere within everyone and everything, to become more and more loving and to become our true selves, our God essence, which is nothing but pure unconditional love.

**OMTimes: Why do you think angels and angel work is so popular today? What is going happening on the planet to make that so?**

The frequency of planet earth is rising all the time that is the reason why more and more angels come close to the earth and more and more people are able to feel their presence. Everyone who was touched by an angel knows that life becomes easier with the miraculous help of these wonderful beings. Of course, it does not mean that tough challenges are eradicated but with the help of the angels we can overcome them.

**OMTimes: What have you learned about life after experiencing such a life threatening illness?**

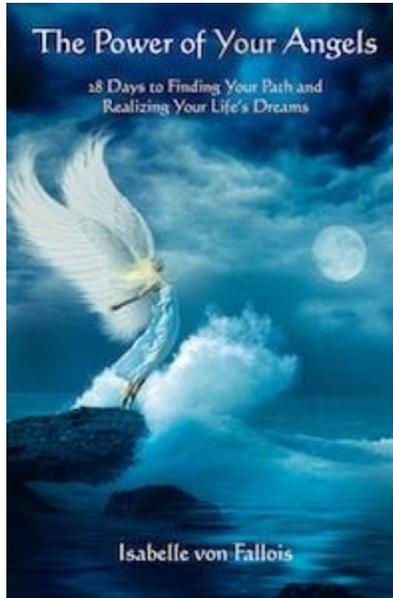

**Isabelle Von Fallois:** Now I truly understand what one of my teachers, the great conductor and Zen Bhuddist Sergiu Celibidache, meant when he taught: That every single fear springs either from the fear of not being loved or fearing death. Through my life-threatening illness I learned that I do not have to fear either one of them because I am ALWAYS loved by God, Jesus Christ and the angels and that no matter what I did or do, whether I am successful or a loser I know how beautiful it is on the other side of the veil, I don't fear death anymore either. This is the greatest gift one can receive because it makes you free to live YOUR life!

**OMTimes:** You love to write and be by the sea, tell us why?

**Isabelle Von Fallois:** The Sea is one of my best friends because I love the merangels, the dolphins, the whales and all the magical creatures of the great oceans. I received a miraculous healing of all my organs, which had been destroyed by months-long chemotherapy through 6 powerful merangels as I swam in the ocean at the “Baie des anges” or “Beach of the angels” in Nice, France. I told this story in one of my German books called, “Die Engel so nah”. In that moment in the ocean I I received life energy and felt the flow and the Oneness of All-that-is. In fact, being in that flow helps me to write.

**OMTimes:** You have met many people who have worked the 28-day program what is their reaction to the book?

**Isabelle Von Fallois:** People love the program and use it in many different ways to transform themselves and manifest a new life. Some people use the book like an oracle and open it at a random page to see what is

important for them in that moment or to work on special themes for a longer time.

**OMTimes:** What is the best message from the angels that you can pass on to readers?

**Isabelle Von**

**Fallois:** For me the most beautiful message is that angels are truly close to us all they are like best friends. They are always here for us in every single instant of our lives. Their wish is to communicate with us is even bigger than ours to communicate with them. So what are you waiting for!!! Let them become your best friends now and forever and your life will be a single miracle!

A life connected to the angels truly is like Yogi Bhanan says:

“I do not BELIEVE in miracles, I RELY on them.”

May your life be blessed by angelic encounters, synchronicity and miracles!
